

WIRELESS PLUG-IN HOLDER HANDS FREE INSTRUCTION MANUAL

=====

GENERAL :

The Wireless Plug-In Holder Hands Free combines Handsfree, Holder, Charger and Saver in one unit. No installation required, just plug into car cigarette lighter socket and keep both hands on the wheel.

OPERATING INSTRUCTION :

A. Using Car Speaker

1. Turn on car radio and preset car tuner to 88.25 MHZ.
2. Start car engine first.
3. Insert the hands free unit into car cigarette lighter socket, the red LED power indicator will light up.
4. Place your cellphone into the hands free unit.
5. Press on the "FM" button, the green light will change to orange light, it indicates that speaker is in "Car Speaker" mode.
6. The volume of car speaker can be regulated by volume key of car radio, or by volume key of the cellphone, or by volume control of the hands free unit.

B. Using Hands free Speaker

1. Start car engine first.
2. Insert the hands free unit into car cigarette lighter socket, the red LED power indicator will light up.
3. Place your cellphone into the hands free unit.
4. Press off the "FM" button, the orange light will change to green light, it indicates that speaker is in "Hands Free Speaker" mode.
5. The volume of hands free speaker can be regulated either by volume key of the cellphone, or by volume control of the hands free unit.

COMMUNICATION :

1. Follow the original user's manual of the cellphone regarding sending or receiving a phone call.
2. In certain cellular phones, the hands-free function must be preset, otherwise the hand-free won't function.

NOTICE :

The changes or modifications not expressly approved by party responsible for compliance could void the user's authority to operate the equipment.
