Re: FCC ID: O3WI70500
Grantee: Palm, Inc.

Gentlemen:

On behalf of Palm, Inc., we request Certification for the above referenced transmitter under Part 90 of Title 47, CFR. We have submitted all of the applicable exhibits we believe are required in support of Certification for the Palm i705, FCC ID: O3WI70500.

Please be advised that PC Test has measured the SAR and Melvin Enderes will be supporting that exhibit for this application. Mr. Enderes is available at 410 290-6652 or email melvin@pctestlab.com. Spectrum has done the other Part 90 related measurements and the administrative related exhibits for this report. I am available 425 771-4482 or email rmunro@spectrumti.com.

The Palm i705 transmitter operates in the frequency range of 896.0125 – 900.875 MHz. The maximum power output is 2-Watts variable down to .25-Watts. The intended transmitter use is to allow the PDA to transmit data utilizing GMSK Mobitex modulation.

We thank you for your time and consideration of this application. Please feel free to contact the undersigned should you require any additional information concerning this request for Certification of the Palm i705 PDA.

Sincerely,

A handwritten signature in black ink that reads "Rod Munro". The signature is stylized with a large, looped "R" and a cursive "Munro".

Rod Munro
President
Spectrum Technology, Inc.
