A blue printed circuit board (PCB) is shown, oriented vertically. The board features several components and soldered connections. At the top, there is a black rectangular component, possibly a connector or a small module. Below it, two small black circular components are visible. The board has multiple rows of gold-plated through-hole pads, some of which are populated with small, dark components. There are also several silver-colored solder joints and components scattered across the surface. The board is set against a blue, textured background.

The image shows a blue PCB with various electronic components. Key components include:

- Processor:** A square chip labeled "BCM2837B0" with "RPI" and "BCM" logos.
- Memory:** A large black chip labeled "1GB LPDDR2-1596 SDRAM".
- Connectors:** Multiple gold-plated pins and connectors, including a large multi-pin connector at the bottom labeled "CN3" and "26".
- Other Components:** Various capacitors (C1, C2, C3, C4, C5, C6, C7, C8, C9, C10, C11, C12, C13, C14, C15, C16, C17, C18, C19, C20), resistors (R1, R2, R3, R4, R5, R6, R7, R8, R9, R10, R11, R12, R13, R14, R15, R16, R17, R18, R19, R20, R21, R22, R23, R24, R25, R26, R27, R28, R29, R30, R31, R32, R33, R34, R35, R36, R37, R38, R39, R40, R41, R42, R43, R44, R45, R46, R47, R48, R49, R50, R51, R52, R53, R54, R55, R56, R57, R58, R59, R60, R61, R62, R63, R64, R65, R66, R67, R68, R69, R70, R71, R72, R73, R74, R75, R76, R77, R78, R79, R80, R81, R82, R83, R84, R85, R86, R87, R88, R89, R90, R91, R92, R93, R94, R95, R96, R97, R98, R99, R100), and other smaller components like diodes and transistors.
