Declaration of Model for different Operating Software

We: **Wong Lap Fai**
Dayton Industrial Co. Ltd

Officially notify TÜV SÜD HK LTD to declare that the <<Additional Model>> have the same technical construction including circuit diagram, PCB Layout, RF parameter, components and component layout, all electrical construction, firmware and mechanical construction, with <<PRODUCT>>, <<Main Test Model>>.

The difference lies only in the Operating Software for working with specific type of the Dropper Seatpost (DP-MC10-RS). Each RS HMI Control has its own specific software to control the bicycle seatpost setting position.

PRODUCT : RS HMI Control
FCC ID : O4G387
IC : 7666A-387

Main Test Model : RS HMI Control 01
Operating Software version: V1.27

<<Additional Model>> RS HMI Control 00
Operating Software version: V1.52

<<Additional Model>> RS HMI Control 02
Operating Software version: V1.53

<<Additional Model>> RS HMI Control 03
Operating Software version: V1.5

<<Additional Model>> RS HMI Control 04
Operating Software version: V1.6
