

SUPER HEADSET COMMUNICATION SYSTEM

INTRODUCTION

Super headset two wave communication system is just like a cordless telephone. It enables both parties to talk at the same time. Its headset style allows your hands to be free for other activities.

HOW TO OPERATE OUR SUPER TWO WAVE COMMUNICATION SYSTEM

1. Unscrew with Phillips screwdriver and open battery door. Install 2 AA / UM3 batteries according to the proper polarities. Close battery compartment door and be sure it snaps shut properly, as Fig. 1 & 2.
2. Select low or high volume by using the selector switch situated at the side of your communication system. Your communication system is now ready to operate.
3. When transmitting, speak clearly in a normal voice.
4. Adjust headset comfortably on your head. See Fig. 3.
5. In the event of interference caused by other radio signals in the vicinity. Move to a different location.

CAUTION

1. Your communication system has been fully adjusted prior to shipment from the factory. Be sure not to touch internal components other than replacing batteries.
2. When the sound becomes weak, it is time to change the batteries.
3. After use, always turn the selector switch to OFF position.
4. Keep your communication system in a dry and clean place.

- Non-rechargeable batteries are not to be recharged.
- Exhausted batteries are to be removed from the toy.
- The supply terminals are not to be short-circuited.
- Do not mix old and new batteries.
