Map

The Google Maps app, tailored for smartphones, is designed to make it easier and faster to explore the world. The new map will help you discover the best places in the city and provide the information you need to get to those places.

How to use Google Maps? Here's a guide to get you started using Google Maps.

Search locations on Google Maps:

- At the top, tap the search box and type an address or name of a place. Or choose a category, like gas stations or groceries.
- Optional: After you find a place on the map, you can see directions to the place in a list, details about a place.

Show map:

- Move the map. To see more details on the map, zoom in or out.
- Zoom in or out of the map: Press the Plus (+) or Minus (-) keys .
- Learn more about a place: Press the icon associated with the place.

See your current location:

You'll see a blue dot, which shows where you are. If you don't see a blue dot, tap your location. To center the map where you are, you'll need to give Maps permission to see your location.

Help Center:

If you are having trouble with the problem, you can use the Help Center to find an answer. E. g, How to use Google Maps? Get directions and show routes, etc.

Youtube

Just tap the icon or swipe to switch to a recommended video, subscription, or account. You can also subscribe to your favorite channels, create playlists, edit and upload videos, express your thoughts via comments or sharing, cast videos to your TV, and more. Everything is done in the YouTube app!

Quickly find your favorite videos

- Browse personalized recommendations in the Home tab
- View the latest content of your favorite channels in the "Subscriptions" tab
- Find videos you watched and liked in the "Accounts" tab

FCC Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This Product meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of this Device FIXO 240K (FCC ID: O55241923) has been tested against this SAR limit. SAR information on this can be viewed on-line at <http://www.fcc.gov/oet/ea/fccid/>. Please use the device FCC ID number for search. This device was tested for typical operations 10mm from the body. To maintain compliance with FCC RF exposure requirements, 10mm separation distance should be maintained to the user's bodies

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However,

there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
