Spurious Emission

There is no significant spurious emission signal found for frequency started from 9kHz up to 18GHz.

There is no significant spurious emission signal found for frequency above 40GHz.

The worst case test plot in the DFT-s-OFDM section for 9kHz up to 18GHz and above 40GHz is reported.

Spurious emission between 18GHz to 40GHz worst case plot is reported as following.

Module 0

Remark: In band and out of band frequencies are omitted.
