

Important Safety Instructions

- 1 Read these instruction.
- 2 Keep these instruction.
- 3 Heed all warnings.
- 4 Follow all instructions.
- 5 Do not use this apparatus near water.
- 6 Clean only with dry cloth.
- 7 Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8 Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9 Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10 Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11 Only use attachments/accessories specified by the manufacturer.
- 12 Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- 13 Unplug this apparatus during lightning storms or when unused for long periods of time
- 14 Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- 15 Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

FCC Customer Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operations.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

WARNING

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Get to know LED light

Internet		Off	Power is off.
		White	Internet is connected.
		Blinking	System is booting.
		Red	Internet is not connected. Connect to the Internet or check the Internet connection.
Ethernet		Off	LAN is not connected.
		White	Ethernet connection is successful at 10/100/1000 Mbps.
2.4/5G Wi-Fi		Off	Wi-Fi is off.
		White	Wi-Fi is on.
USB		Off	No USB device is connected.
		White	USB device is connected and active.
WPS		Off	No WPS connection exists.
		Slow blinking	WPS connection is in progress.
		Fast blinking	WPS connection is failed.

Download the HUMAX App

1. Scan a QR code or search for HUMAX Wi-Fi in the Apple App Store or Google Play Store.
2. Download and launch the HUMAX Wi-Fi app on your mobile device and follow the prompts.

HUMANX Wi-Fi App

With this App, you can easily access to the network management and configurations. QoS, LED control, parental control etc. can be accomplished by utilizing this App.

Specification

Power Supply	Adaptor
Input voltage	100-240V ~ 50/60Hz
Power Consumption	12V 2.5A
Temperature	40°C
Size	260x159x29(mm)
Weight	718g

Contact Customer Support

Thank you for purchasing HUMAX Wi-Fi router. You can visit <http://quantum.humaxdigital.com/support/> to get help, access the latest software downloads and user manuals. We recommend that you use only official HUMAX support resources.

* Product, software, services or features in this guide may be subject to change without notice due to firmware update or any other reasons.

* Performance or capabilities may depend on the Internet service terms and conditions or environmental elements.

Appliance Classes

	Double insulated Class II equipment (IEC 60417-5172). Do not require an earth connection.
	For indoor use only (IEC 60417-5957).
	Direct current (IEC 60417-5031).
	Stand by (IEC 60417-5009).

QUANTUM T9x, T7x, T5x

What's in the box

HUMAX Router

Ethernet Cable

Power Adapter
(varies by region)

Quick Start Guide

Buttons and ports

- 1 Internet port for Internet connection
- 2 Ethernet port specialized in entertainment devices
- 3 Ethernet port for network devices
- 4 USB2.0
- 5 USB3.0 faster and more efficient in power consumption
- 6 Reset button to restart system

Note: Long press more than 5 seconds to clear all settings.

All LEDs will blink during the process.

- 7 DC power connector for power supply
- 8 Power button to turn on or off

- 9 **WPS:** One touch WPS connection
- 10 **LED:** LEDs on/off
- 11 **WiFi:** Simple Wi-Fi on/off

How to install

- 1 Connect the Internet cable to the red Internet port.
Note: You can connect to the Internet through a modem with the Ethernet cable (included). The cable must be plugged into the red Internet port.

- 2 Supply power using the included power adapter.

- 3 Press the POWER button. Wait for the Internet's LED to white.

- 4 Connect PC or mobile device to the router with an Ethernet or Wi-Fi connection.

- **Ethernet:** Use an Ethernet cable to connect your device to the router.
- **Wi-Fi:** Use the Wi-Fi network name (SSID) and password printed on the label of the router.

WARNING

To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.

The apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

To prevent malfunction caused by temperature, do not use the product in a closed space with less than 3 inches of clearance from the right/left/top of the product.

Simplified EU Declaration of Conformity

The simplified EU declaration of conformity referred to in Article 10(9) shall be provided as follows:

Hereby, HUMAX declares that the radio equipment type [QUANTUM T9x] is in compliance with Directive 2014/53/EU and relevant directives.

The full text of the EU declaration of conformity is available at the following internet address:

- United Kingdom : <http://uk.humaxdigital.com/ec>
- Germany : <http://de.humaxdigital.com/ec>

Wireless Equipment Use Information

1. In France
Authorization for outdoor usage is limited to Channels 1~7 (2.400 ~ 2.454 GHz).
2. In Italy
For outdoor usage a general authorization is required from the national spectrum authorities.
3. In Latvia
For outdoor usage an authorization is required from the Electronic Communications Office.
4. 5GHz Radio Local Area Networks (RLANs) Band only indoor use.
5. This equipment may be operated in all European Union member countries and Turkey.
