### 2. Safety Information

Read the safety information and the instruction before use. Explain the contents to your children and the potential hazards associated with using the device.

- ⊗ Do not disassemble, open, drop, crush, bend, deform, puncture, shred, microwave, paint, or insert foreign objects into SiME Smart Glasses.

#### ⚠ Warning of bending temples

SiME Smart Glasses prohibits bending temples because of mechanical limitation. To bend temples may cause deform or damage.

- ⓘ Only use the SiME Smart Glasses adapter or PC/NB equipment which compliant with USB 2.0 or 1.1 standards for charging. Prohibit any other battery type as this could result in significant health risks and personal injury.
- 🚫 Do not carry the system in bathrooms or showers since the device is not waterproof.
- 🔥 Do not use device in environments with a potential explosion hazard. Avoid close an external heat source, such as a microwave oven or hair dryer.
- ⚠ The exterior of the device is made of polycarbonate. It could break if device is dropped on a hard surface or receives a substantial impact. If the exterior chips or cracks, stop using and contact your dealer.
- ⚠ It's not recommended to use the device while driving a vehicle or riding a bicycle. It is illegal to use when driving in certain countries.
- 👁 Recommend you take a break from watching display screen for a long time to prevent eyestrain.
- ⚠ Do not carry device in rain, near washbasins or other wet locations. Take care not to spill any food or liquid on device. If gets wet, unplug all cables, turn off SiME Smart Glasses before cleaning.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) this device may not cause harmful interference and
- 2) this device must accept any interference received, including interference that may cause undesired operation of the device.

#### RF Exposure:

"For body worn operation, this phone has been tested and meets FCC RF exposure guidelines when used with an accessory that contains no metal and that positions the handset a minimum of 0cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines."

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- 1) this device may not cause harmful interference and
- 2) this device must accept any interference received, including interference that may cause undesired operation of the device.

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment..
