Radio Board in Place on Function Board

Radio Board Removed from Function Board

A green printed circuit board (PCB) is shown, featuring several electronic components and connectors. On the left side, there is a vertical strip of five gold-plated pins. On the right side, there is a vertical strip of ten black plastic connectors, each with a gold-plated pin. The PCB has numerous circular holes for components, some of which are filled with a dark material. There are also several small, rectangular components mounted on the board. The board is set against a light blue background.
