[Beyond the basics](#)

Like a good personal assistant, your handheld helps you keep track of your schedule, your business and personal contacts, your to-do list, even your Microsoft Office and multimedia files.

Stay productive by carrying more of your important files and documents. Get connected with wireless access to email, text messages, and the web. View digital photo and video albums and listen to your favorite music (expansion card, sold separately, required for Mac users to listen to music on their handheld.) And don't worry about losing your information—even if the battery drains completely, the information stays in your handheld's memory. Simply recharge to access it again.

Benefits

- Carry more of your important information, and work with it on the go
- Save time and stay organized
- Travel light
- Never lose important information
- Stay in touch with wireless connectivity

*** Tip**

The Favorites application offers multiple pages of favorites. Pressing Home once opens the first page of Favorites; use the buttons in the upper-right corner of the Favorites screen to go to the other pages.

What's on my handheld?

Front

**Screen**

Displays the applications and information on your handheld. The screen is touch-sensitive.

Display the input area by tapping the Input icon  on the **status bar**. Use the input area to enter info with **Graffiti® 2 writing** or the **onscreen keyboard**.

Home quick button

Press once to open Favorites View, which lets you create a list of the items you want to quickly access. Favorites View can include applications and links to the web. Press twice to open Applications View, where you can see all of the applications on your handheld.
