Re:	FCC ID 08FHVP-1H
Applicant:	Handspring, Inc.
Correspondence Reference Number:	19996
731 Confirmation Number:	EA101422

FCC: Does the keypad provide an ear plug/phone, or is the ear piece built into the keypad?

Handspring: The earphone jack is built into the VisorPhone module, NOT the phone keypad. The phone keypad incorporates a speaker.

FCC: It is not clear if this device is held-to-face, or held-to-ear operation.

Handspring: The device is classified as held to face, however it can be held to ear, worn on body (when using an earphone) or held to face and used like a small speakerphone (with the volume turned up)

FCC: Please provide external and internal photographs of the keypad.

Handspring: Pictures of the device have been uploaded to the FCC Web site

FCC: Please provide a user manual for the keypad, including the RF exposure warning and information to the user.

Handspring: This information is contained in the user manual for the VisorPhone module, not the phone keypad. A copy of the VisorPhone manual has been uploaded to the FCC website.
