Subject: Request for a Class II Permissive Change

FCC ID: OA6-S50
Grant Date(s): 11/19/2024

Pursuant to CFR47 §2.1043, the Grantee Ott Hydromet GmbH hereby requests a Class II Permissive Change for this already FCC certified device.

Following changes apply to the modified device:

This modular approved transmitter is integrated by the Grantee into his own host device using a unique antenna trace-design together with a new external omnidirectional antenna (AntennaFactor / ANT-2.4-CW-QW / peak gain 1.1 dBi). The max output power is reduced by software (power setting + 3 dBm) only for the usage inside this dedicated host device: Compact Datalogger OTT SensorLink 1000. The host device is a non-consumer device and therefore only controlled marketed and installed by professionals.

The modular type changes to Limited Single Modular.

Sincerely,

Sabrina Berghahn
