Dear Sir/Madam,

This transmitter was designed to operate in following frequency ranges: 400-480MHz

Quanzhou Chierda Electronic Telecom Co., Ltd. attests that the TWO WAY RADIO will not be marketed to USA users with the frequency band which is not allowed by the rule Parts 90. Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.

Please contact me if you require any additional information.
Sincerely Yours,
