

Dear Diane,

1. The revised user manual has been submitted.
2. Please refer to the revised internal photos. Y2, Y3 and Y4 are on the solder side of the main PCB.
3. SW1, SW2, SW3 and SW4 are buttons which the user can control this device. This device can duplicate up to four control function codes from the original transmitter. The duplicate procedure and operation method are provided in the user manual.

Best regards,

S. S. Liou
Engineer / EMC Dept. II
Electronics Testing Center, Taiwan

> DO NOT reply to this e-mail by using the Reply button. In order for your response to be processed expeditiously, you must upload your response via the Internet at www.fcc.gov, Electronic Filing, OET Equipment Authorization Electronic Filing. If the response is submitted through Add Attachments, in order to expedite processing, a message which informs the processing staff that a new exhibit has been submitted must also be submitted via Submit Correspondence. Also, please note that partial responses increase processing time and should not be submitted.
