Radiation Exposure Statement

The following statement is provided in the user guides for the No Wires Needed 1100 wireless LAN products, in compliance with the limits set forth in the FCC rules 1.1307.

For the Wireless Bridges WB-S 1100 and WB-C 1100, (OGD10310308), the following statement is in the Radiation Statement section of the user guides.

“FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with no less than the minimum distance between your body, excluding hands, wrists, feet and ankles, and the antennas as shown in the table below:

Effective Gain Omni antenna (2 dBi)	20cm (7 inches)
Effective Gain Sector antenna (10 dBi)	20cm (7 inches)
Effective Gain Dish Directional antenna (18 dBi)	20cm (7 inches)

The above antennas are all to be mounted on the building exterior by professional antenna installers.

Antenna installation instructions are contained in the user manual and contain these separation requirements.”
