Subject: Re: FCC ID: OJM-CMDHHTX433

In order for processing of this application (FCC ID: OJM-CMDHHTX433) to continue, the following issue(s) will have to be addressed:

1) The test report contained in the application (B10727D1) contains test data for a 315 MHz transmitter. The application requests certification for a 433 MHz transmitter. Please correct the discrepancy and submit an updated test report.

Response: The wrong data was accidentally inserted into the test report. The test report has been revised to include the correct data for the 433.92 MHz transmitter. Sorry for the inconvenience.
