Description of parts

NOTE

Qi Logo: This product is Qi-certified wireless charger.
No Smart Key: Do not put a smart key on this product.
No Coins: Do not put the coins on this product.

How to use

1. Turn on the engine, and see if the product's power LED (left) is lit.
 2. Place the device that has the Qi logo on the middle of the charging pad. (Is better to align the device to the center of the pad)
 3. The Charge LED starts to light on in red as charging begins.
 4. When the charging is finished, the LED will turn green.
- If it is not charging well make sure to align the device to the center and recharge.
 - Some smartphones or cases do not send the full charging signal to wireless charger, in this case, the charge LED will remain in red.

Troubleshooting

The device is not charging

- Make sure the device is qi standard.
- Relocate the device location.
- Make sure the device being charged is full.
- Make sure that something is on the wireless charger

The charge LED is blinking fast or not lit

- Make sure you have properly connected your device with the appropriate wireless charging case, or foreign objects are inserted between receiver and transmitter.
- Relocate the device location.
