SAFETY PRECAUTIONS

Adults, to ensure that the child's play is both safe and fun, please review operating instructions and the following safety rules before operating vehicle.

FAXED
 Y344 (76)

- Do not pick up vehicle while in motion.
 - Keep fingers, hair and loose clothing away from the tires and the wheel hubs while the vehicle is in operation.
 - To avoid accidental operation, remove battery pack when not in use.
1. Radio interference is caused by the presence of another radio-controlled vehicle operating on the same frequency as our vehicle.
 2. Radio interference can be caused by the operation of your vehicle near high voltage electrical wires, large steel reinforced concrete buildings and passing trucks with CB radios.
 3. DO NOT operate your vehicle over wet surfaces. Water can damage the internal electronic assemblies.
 4. DO NOT drive your remote control vehicle into streets.
 5. For best results, hold antenna up, not pointed down toward the R/C vehicle. Too far away from the transmitter, your signal strength will become weak and the vehicle will not function properly.

A light will circle around the middle of the car.
To select pattern, release button.

**DRIVING TIPS**

1. Practice racing at different speeds - press and hold the forward / reverse button for full speed and tap button for slower speeds.
2. How long you hold the wheel as you turn affects how much the car turns, remember to turn the wheel and then quickly release.
3. When the vehicle is coming towards you, the steering is opposite to the way you turn. Try to image that you are in the driver's seat and this will help you turn the way you want.
