

Troubleshooting		
Function	Problem	Solutions
General	No power	Check the connection to the AC source. Make sure the AC source is not a switched outlet and if it is, turn the switch on. Make sure there is power to the AC outlet by plugging another item such as a lamp or fan.
	No sound	Adjust the volume knob.
	The sound has interference	The unit is too close to a TV set or similar appliance. Relocate the unit further away from them or turn the other appliance off.
Radio	Cannot listen to any station or signal is weak	Tune the station properly. If a TV is near the unit, turn it off. Rotate the unit or antenna wire for the best reception position.
Bluetooth	Will not play	Device is not paired properly; turn off Bluetooth and turn it on latter to repair.

Specifications:

- Build-in bluetooth function can stream music from hundreds bluetooth enabled devices
- AM/FM high sensitivity receivers (FM stereo)
- 3-speed Turntable record player (33 $\frac{1}{3}$; 45; 78 RPM) with auto stop
- 3.5mm aux-in jack function with cable
- Pig tail FM antenna
- LED backlight(Amber)
- Bluetooth version: 5.3
- Output power: 2x3W
- Input: 100-240V~ , 50/60Hz 0.5A
- Output: 9.0V --- 0.8A, 7.2W

	The symbol indicates AC voltage
	The symbol indicates DC voltage
	For indoor use only
	The symbol indicates energy efficiency marking
	The symbol indicates polarity of d.c. power connector
	The symbol indicates class II equipment

Safety

- Do not use near any water source
- Do not modify or repair this device
- Do not use in high temperatures or extreme weather
- Do not use chemical detergents to clean your device, use a soft dry cloth

FCC Exposure Statement
To maintain compliance with the FCC's RF exposure guidelines, place the product at least 20 cm from nearby persons.

FCC ID: OKJUC1620 Model: NASA Made in China
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
