

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and
Board View 1****EUT Housing and
Board View 2**

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The board is rectangular with a white connector strip on the left side. It is populated with various electronic components, including integrated circuits, capacitors, and resistors. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows dimensions from 0 to 100 mm.
Solder Board-Component View 2	 A photograph of the same green PCB component, labeled 'Solder Board-Component View 2'. This view shows the reverse side of the board, which features several push buttons labeled S1 through S7. The board is populated with various electronic components, including integrated circuits, capacitors, and resistors. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows dimensions from 0 to 100 mm.

Solder Board-Component View 3	 A photograph of a small, green printed circuit board (PCB) component, likely a microcontroller or sensor module, mounted on a blue textured surface. The component is rectangular with various electronic components and solder joints visible. It is positioned next to a black ruler with white markings, which shows dimensions in millimeters. The ruler is oriented vertically, with the component's width measured against the horizontal scale (0 to 100 mm) and its height against the vertical scale (0 to 100 mm).
Solder Board-Component View 4	 A photograph of a small, orange printed circuit board (PCB) component, likely a microcontroller or sensor module, mounted on a blue textured surface. The component is rectangular with various electronic components and solder joints visible. It is positioned next to a black ruler with white markings, which shows dimensions in millimeters. The ruler is oriented vertically, with the component's width measured against the horizontal scale (0 to 100 mm) and its height against the vertical scale (0 to 100 mm). The component has a USB-A connector on the left side and a small black component on the right side. Text on the component includes "IP06UBT DC.PCB", "V1.0 94HB 1.2MM", and "20180523".
