

BT Module

A close-up photograph of a blue printed circuit board (PCB) mounted on a green base board. The blue PCB features various electronic components, including a central black integrated circuit (IC) labeled '2015-1-19 ZOL_RF154_V1'. A red rectangular box highlights this text, and a red arrow points from the top left towards the component. The green base board has other components like a large black IC, a silver capacitor, and various surface-mount components. The text 'BT1' is visible on the green board.
