Weekday: Weekday sets automatically when Year, Month, and Date are set.

BUTTON FUNCTIONS

RAIN ALERT	Press to view Rain Readings. Hold to Set 24 Hr Rain Alert.
HISTORY TIME SET	Press to view Monthly Rain Records. Hold to enter the Settings Menu.
RESET	In Settings, press to decrease the value. Hold to reset individual rain records.
+ MODE SENSOR	Press to select Indoor Temp/Calendar Display. In Settings, press to increase the value. Hold to search for sensor.

RAIN READINGS

Press the RAIN/ALERT button to view different rain readings. Rainfall readings will stay on user selection.

NOW: Rain readings from the start of a rain event until no rain has accumulated for 30 minutes. This will reset to zero after 30 minutes of no rainfall.

ONE HR: Last one hour rainfall. Example: If current time is 6:49, ONE HR rain is the accumulated total between 5:50 and 6:49.

24HR: A running total for the past 24 hours of accumulated rain. This will update at the top of each hour.

7 DAYS: Rainfall from the last 7 consecutive 24HR readings. Updates each day at midnight.

MONTH: Current Month Total (Jan 1 - Jan 31). This will reset to zero at the start of each new month.

YEAR: Current Year Total (Jan 1 - Dec 31). This will reset to zero at the start of each new calendar year.

TOTAL: Total rainfall since powered on or reset.

Note: As time passes without rain, the NOW, ONE HR, 24 HR, and 7 DAY rain totals will count down to zero.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Increase separation between equipment & receiver.
- Consult the dealer or an experienced radio/TV technician for help.

This device must not be co-located or operating in conjunction with any other antenna or transmitter. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

CAUTION!

The manufacturer is not responsible for any radio or TV interference caused by unauthorized changes or modifications to this equipment. Such changes or modifications could void the user authority to operate the equipment.

All rights reserved. This manual may not be reproduced in any form, even in part, or duplicated or processed using electronic, mechanical or chemical process without the written permission of the publisher.

This booklet may contain errors or misprints. The information it contains is regularly checked and corrections are included in subsequent editions. We disclaim any responsibility for any technical error or printing error, or their consequences. All trademarks and patents are recognized.

WARNING: This product can expose you to chemicals including styrene, which is known to the State of California to cause cancer. For more information go to: www.P65Warnings.ca.gov

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development

Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
- 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
