Re: FCC ID: ONTJETIR900US

To Whom It May Concern:

The following application is submitted on behalf of our client, Esprit Model Inc., for evaluation of their model JETIR900US for certification under FCC Part 15.247.

The JETIR900US is a 900 ISM band transceiver for remote control toys. The unit is configured with two antenna paths. Transmission only occurs through one antenna at the time.

The JETIR900US was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Sam Wismer". The signature is fluid and cursive, with the first letter of the first name being a large, stylized "R".
