Re: Required Photographs for Transfer of Grants to Innovative Home Products, Inc.
Our Ref.: 11058-002001

Dear Ms. Bosley:

The purpose of this letter is to submit photographs that are required in connection with a transfer of equipment authorization grants to our client, Innovative Home Products, Inc. of Birmingham, Michigan. You may recall that we obtained these transfers of grants in November and December of 1999. We have enclosed a copy of the verification from the FCC web site showing that the 14 grants have been issued to Innovative. At the time of application for the grants, we did not have the photographs required under 47 C.F.R. 2.933. As per a telephone discussion with Mr. Richard Fabina of your office on September 9, 1999, it was agreed that an engineering drawing would be submitted in lieu of photographs with each Form 731 for the individual devices, with the understanding that photographs would be submitted prior to marketing. We have now obtained the photographs for 11 of the 14 devices, and they are enclosed with this letter.

The following table lists all of the equipments for which a transfer of grant of equipment authorization has been granted:
