

Response to FCC correspondence number 12516
confirmation number EA96404

The equipment meets rule 15.247

6 dB BW, 15.247(a)(2), is shown to be compliant by the information in section 4 of the report.

Maximum peak output power, 15.247(b)(1) is shown to be compliant by the information in section 6 of the report.

Emissions outside the the frequency band of intentional radiation, 15.247(c) is shown to be compliant by the information in sections 2 and 3 of the report.

Peak power Spectral Density, 15.247(d) is shown to be compliant by the information in section 6 of the report.

EA, 15.247(b)(4) is not applicable to this equipment.

In addition, the equipment is shown to be compliant with the generic testing requirements for intentional radiators of 47 CFR 2.1047 by the information in section 8 of the report; 47 CFR 2.1055 by the information in section 5 of the report.

The processing gain, 15.247(e)(1) and (2), is 12.04 dB.
