Columbia, MD 21046

Dear Sir or Madam:

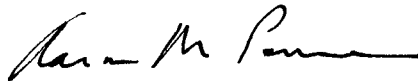

Transmitted herewith in electronic form is FCC Form 731, an application for equipment authorization for the Breitling Emergency watch, submitted on behalf of Breitling U.S.A., Inc. The Emergency is a back-up survival instrument -- similar to a survival type Emergency Locator Transmitter -- intended for use in the event of an aviation accident. A miniature radio transmitter built into the Emergency's case, when manually activated by a pilot in distress, broadcasts a signal on the international aviation distress frequency of 121.5 MHz.

A money order in the amount of \$520.00, along with FCC Form 159, has been sent to Equipment Approval Services, P.O. Box 358315, in Pittsburgh, Pa. The filing fee codes are EAG and EFT.

Please note that this application is also the subject of a pending waiver request filed with the FCC on July 2, 1999.

Please do not hesitate to contact with me any questions.

Very truly yours,

Aaron M. Panner
