

We, Autec Srl, declare that:

the transmitting unit Model FJB Type NZ422 with its radio coder FSARTBAU1 may be configured to operate over the whole 902-928MHz band.

The specific used frequency band will be configured during the manufacturing process (changes for any radio parameter are not allowed and are impossible by any third party).

According to a customers' request, Autec is going to configure this transmitting unit to operate at 915-928MHz band.

There are no hardware differences between the radio modules configured in 902-928MHz band and radio modules in 915-928MHz.

Dated this 20<sup>th</sup> of July, 2018
