FOR BEST RESULTS:

1. Be aware of Radio frequencies. Avoid operating within range of another unit using the same frequency. Radio frequency is indicated on the Package and Controller.
2. Use fresh Alkaline Batteries. Do not mix old and new batteries. If malfunction occurs, replace Batteries.
3. Keep Antennae tightly screwed into Controller. Extend Antennae to maximum length when in use.
4. Keep ON/OFF switch in "OFF" position when toy is not in use.
5. Remove Batteries when toy is not in use for extended periods of time.
6. Operate Controller within 45 feet of vehicle.
7. Keep contacts clean from rust and dust.
8. To prevent the vehicle from overheating, a protective circuit will disable the vehicle MOMENTARILY if any function is run continuously for a prolonged period of time.

If you experience poor performance or limited reception, batteries may need to be changed.

Only adults should install and change the batteries.

- Never mix old and new batteries or different brands of batteries.
- Never mix alkaline, standard (carbon-zinc) and rechargeable (nickel-cadmium) batteries.
- Never use rechargeable batteries with this product.
- Do not dispose of batteries in fire. Batteries may leak and explode.
- Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
