

Technical Description

The Equipment Under Test (EUT) is a portable 49.86MHz Receiver (Car Unit) for a RC Controller.

The EUT is powered by 9V battery. After switch on the EUT, the EUT can be controlled to move forward/backward and turn left/ right by the controller.

The brief circuit description is listed as below:

- 1) U1 and the associated circuit act as the MCU (TXM8D423C).**
