VSLZ Transmitter

The image shows a long, narrow electronic circuit board, likely a transmitter, resting on a dark wooden surface. The board is populated with various electronic components, including integrated circuits, resistors, and capacitors. A small, dark rectangular component is visible in the center of the board. In front of the board, a white rectangular label is placed, containing the text "PHOENIX TECHNOLOGIES INCORPORATED VSLZ Transmitter" in a serif font. The background is a dark, textured surface.
