Date: 1/29/2026

Attn: FCC Office of Engineering and Technology / UL Verification Services TCB

Ref: Class II Permissive Change for JDLINK M Modem – 4G (FCC ID: OV5-MA4M)
Original approval date: March 8th, 2023
Additional C2PC dates: N/A
Applicant: Deere & Company

To Whom It May Concern

This is to request for a Class II Permissive Change to address the following proposed changes for this device:

The modem was initially certified as a mobile device under FCC guidelines. The intent of this submission is to reclassify the product as a portable device to allow mounting of the product within 20 cm from the operator. SAR data to demonstrate compliance with FCC requirements for the modem has been provided to support this application. The SAR exposure assessment also addresses colocation with other transmitters when installed on a machine.

Only SAR exposure data is provided to support this application. We have performed full SAR testing to verify that the modem remains compliant with the FCC standards.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

A handwritten signature in black ink that reads "Lane Arthur".

Lane Arthur
Vice President, Precision Technologies
