Subject: FCC Limited Modular Approval Letter

FCC ID: OV8-PS-3

To whom it may concern

We, Seba Dynatronic Mess- und Ortungstechnik GmbH, hereby declare that the product, FCC ID: OV8-PS-3 has met the Limited modular approval requirements of FCC rule part §15.212(a)(1) and this is shown in the table below.

| Requirement                                                                                                                                                                                                               | Compliance:<br>Yes or No along with a justification |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------|
| The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly                                | No                                                  |
| The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal                                                                        | Yes                                                 |
| The module must contain power supply regulation on the module                                                                                                                                                             | Yes                                                 |
| The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b) | Yes, . Integral to PCB                              |
| The module must demonstrate compliance in a stand-alone configuration                                                                                                                                                     | Yes- tested as a stand alone device                 |

|                                                                                                                                                                   |                                                                      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------|
| The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)     | Yes.                                                                 |
| The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee | The module is integrated into a specific PocketServer 3 host product |
| The module must comply with RF exposure requirements                                                                                                              | SAR tested when installed in PocketServer 3 host product             |

Yours faithfully,

Dr. Frank Petzold, Technical Director
