Product Description

The phones OVFKWC-K4X4 are Tri-mode Dual-Band 1XRTT products. Models that contain the letter “L” have integrated Assisted GPS software feature enabled to meet the emergency location requirements of the FCC’s E911 Phase II mandate. The Tri-mode architecture is defined as 1900MHz (PCS CDMA), 800MHz (cellular CDMA and AMPS).

All models included in the OVFKWC-K4X4 filing use the same antenna and have identical PCB layouts in regards to the RF Circuitry, Basic Frequency Determining and Stabilization Circuitry, Basic Modulator Circuit, Transmitter Active Devices, and Tuning Targets. The only differences between models are the mechanical design of each model family’s front housings, choice of color or greyscale LCD, and software applications supported (GPS, Brew, WAP, etc.). See product matrix in Figure 1 below.

The phone is designed in compliance with the technical specifications for compatibility of mobile and base stations in the Cellular Radio telephone service contained in “Cellular System Mobile Station -Land Station Compatibility Specification” as specified in OET Bulletin 53 and TIA Standards

The phone will support certain CDMA2000 radio-configurations (RC) as describes in Exhibit 1 (operation description).

					
	Phantom	Rave	Rave	Aktiv	Energi
	K450	K404	K430	K480	K490
	Non-BREW / BREW		Non-BREW / BREW	Non-BREW / BREW	Non-BREW / BREW
KWC Trimode/GPS/Greyscale	K454L		K434L	K484L	
KWC Trimode/no GPS/Greyscale	K454N		K434N	K484N	
KWC Trimode/GPS/Color	K454LC / K454XLC	K404A	K434LC / K434XLC	K484LC / K484XLC	K494LC / K494XLC
KWC Trimode/no GPS/Color	K454NC / K454XNC		K434NC / K434XNC	K484NC / K484XNC	K494NC / K494XNC
KWC Trimode/GPS/WAP 2.0	K454MC / K454XMC		K434MC / K434XMC	K484MC / K484XMC	K494MC / K494XMC
