Subject: Request for Cancellation of FCC ID OVNMF

Applicant: STID
Product (PMN): MUF
Model (HVIN): MUF
FCC ID: OVNMF

To Whom It May Concern:

On behalf of STID, we would like to formally request the cancellation of FCC ID OVNMF associated with the certification application for the MUF radio module.

After conducting a comprehensive review of our certification strategy, we have determined that the host product originally selected for this application is not the best fit for the intended deployment of the MUF module within our RFID reader product lineup. Consequently, STID has decided to withdraw from the current certification process and pursue a new certification pathway based on a more suitable reference product, ensuring full compliance with applicable standards.

We want to stress that no product featuring FCC ID OVNMF has been marketed, distributed, sold, or otherwise made available anywhere in the world. Therefore, this cancellation will not affect the market or end users.

Given these circumstances, we kindly ask for the cancellation of the certification application for FCC ID OVNMF and the withdrawal of the corresponding FCC ID from further processing.

We genuinely appreciate your attention to this matter and are available for any additional information or supporting documentation you may need.

Yours sincerely,

Sylvain Poitrat, June 03th, 2026
