Change submission

M/A-COM seeks change processing for the Equipment Authorization Grant for P7100 800 MHz portable radio equipment as referenced above.

Exhibits include updated photographs, schematics, and parts list.

The changes that have been done are:

- Original manufacturer has stopped producing receiver filters. Replacement devices are identical as before; same physical package; same performance parameters.
- Resistor values optimized to improve speaker audio.
- PA changed. Artwork of board altered to accommodate new PA; driver stage added; passive components added, deleted, or optimized.. Conducted power remains the same. Original component has become obsolete and no longer available.

Confidentiality letter and Rhein Tech Laboratories, Inc. agent authorization letter to act on M/A-COM's behalf for this change submission, have been provided as exhibits also.

Thank you for your kind consideration and timely review.

Sincerely,

Daryl Popowitch
Regulatory Manager,
Engineering Project Manager
