VHF MastR III base station
Equipment Authorization Grant

M/A-COM wishes the subject new equipment processed for an Equipment Authorization Grant.

Two transmit synthesizer modules are used to cover the frequency band with minor differences in passive components, while their reference remains unchanged and common to both, as it resides on a separate module.

Confidentiality letter and Solectron agent authorization letter, to act on M/A-COM's behalf for this change request, have been provided as exhibits as well.

Sincerely,

Daryl G. Popowitch
