

Targus Antimicrobial Protection is a protective finish creating a cleaner surface. Unlike typically applied sprays, it works continuously to protect the device by preventing the growth of microorganisms. Keep your mouse safer with Targus Antimicrobial Protection.

*Antimicrobial product protection is limited to the device itself.
This mouse has been treated with an antimicrobial additive. Active ingredient: Silver Phosphate Glass (nano-).
EPA Est. 99234-CA-1

La protection antimicrobienne Targus est une finition protectrice créant une surface plus propre. Contrairement aux sprays à application topique, elle agit en continu pour protéger le périphérique en empêchant la croissance des micro-organismes. Gardez votre souris plus sûre avec la protection antimicrobienne Targus.

**La protection antimicrobienne du produit est limitée au produit lui-même.
Cette souris a été traitée avec un additif antimicrobien. Ingrédient actif : Verre phosphaté à l'argent (nano-).
EPA Est. 99234-CA-1

La Protección Antimicrobiana Targus es un acabado protector que crea una superficie más limpia. A diferencia de los aerosoles aplicados típicamente, permanece activo de forma continua para proteger el dispositivo al evitar el crecimiento de microorganismos. Mantenga su mouse más seguro con la Protección Antimicrobiana Targus.

**La protección de producto antimicrobiana está limitada al dispositivo en sí.
Este mouse ha sido tratado con un aditivo antimicrobiano. Ingrediente activo: vidrio de fosfato de plata (nano-).
EPA Est. 99234-CA-1

2 Year LIMITED Warranty

We pride ourselves on the quality of our products. For complete warranty details and a list of our Worldwide offices, please visit www.targus.com. Targus Wireless Mouse

GB - Introduction

Thank you for your purchase of the Targus Midsize Multi-Device Wireless Mouse. The USB receiver conveniently stores inside the mouse for ease of use while traveling or on the go. This is a plug and play device so no additional software is required.

Contents

- Targus Wireless Mouse
- 1 x AA Energizer Battery
- USB Receiver
- User Guide

System Requirements**Hardware**

- USB A port

Operating System

Windows® 10

macOS®

iOS®

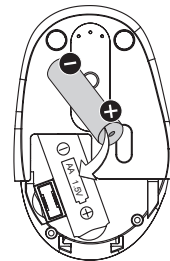

Android™

Product Name	Operation Frequency (MHz)	Maximum EIRP Power (dBm) (EU)	Working distance
Wireless Mouse: AMB582	2402-2480MHz	0.65	10M
Wireless Mouse Receiver: AMB581R	2403-2480MHz	0.65	10M

Targus Wireless Mouse

Installing the Battery

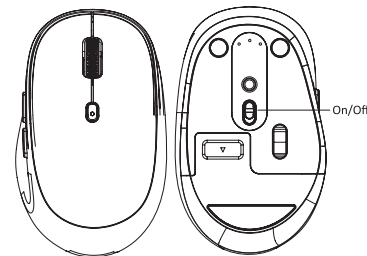

1. Insert the AA-size battery, making sure that the positive (+) and negative (-) ends of only one battery match the polarity indicators inside the battery compartment.

2. Close the battery cover, carefully fit the cover until it clicks into place.

Use the **“ON/OFF”** switch to power the mouse on or off. Turn OFF to save battery power.

3. When the battery is low, the lower power indicator light on the top will flash to indicate the battery need to be replaced.

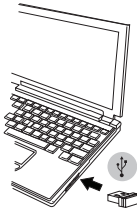

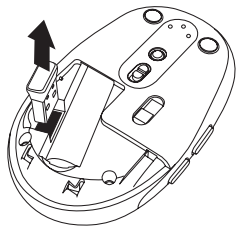

NOTE: THE BATTERY WILL NEED TO BE IN THE SECURE, LOCKED POSITION BEFORE THE BATTERY COVER CAN BE PUT BACK IN PLACE.

Targus Wireless Mouse

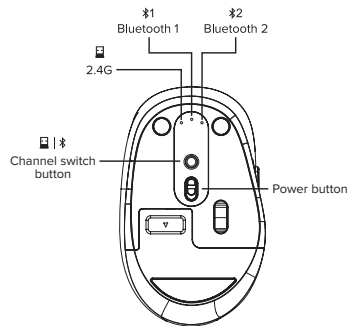

Establishing the Connection of 2.4G Wireless

(A) Remove the USB receiver from the mouse.

(B) Plug the USB A receiver into an available USB A port on your computer.

(C) Click the wireless channel selection button to select first 2.4G channel, then the white LED indicator will light up and pair automatically.

Targus Wireless Mouse

Forward

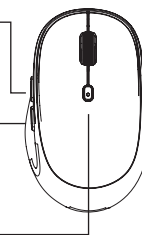

Press this button to view the next page in your Internet browser.

Backward

Press this button to view the previous page in your Internet browser.

DPI Switch

The switch is under scroll wheel, press to select: 1000 DPI / 1600 DPI / 2400 DPI.

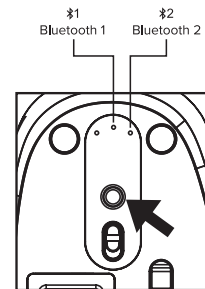

Power Saving mode:

After an extended period of time, if the mouse is not used after 30 minutes, it will automatically enter power saving mode to conserve power and increase battery life. Click on any mouse button resume the normal operation. The mouse may take a few seconds to reconnect with your computer.

Establishing the Connection of Bluetooth

Establish Pairing

1. Turn on the mouse by sliding the power button to the ON position.
2. Switch ON the Bluetooth function of your device and turn on the Bluetooth search mode.
3. Press the connect button on the bottom of the mouse to select one of the 2 Bluetooth channel first, then hold down the button for 3 seconds to enable Bluetooth pairing mode, the white indicator light will flash for up to 2 minutes when the mouse is in pairing mode.
4. Tap "Targus AMB582" in the Bluetooth search menu on your device.
5. The pairing will start automatically. Press the Bluetooth channel button to switch between devices once multiple devices have been connected.
6. The Targus AMB582 is now connected to your device and the white light will stop flashing.

Targus Wireless Mouse

FR - Introduction

Nous vous remercions d'avoir acheté la souris sans fil multi-appareils Targus de taille moyenne. Le récepteur USB se range facilement à l'intérieur de la souris pour une utilisation facile en voyage ou en déplacement. Il s'agit d'un dispositif prêt à l'emploi qui ne nécessite aucun logiciel supplémentaire.

Contenu

- Souris sans fil Targus
- 1 pile AA Energizer
- Récepteur USB
- Guide d'utilisation

Configuration requise du système

iOS®

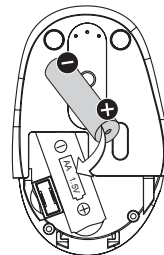

Android™

Nom du produit	Fréquence de fonctionnement (MHz)	Puissance EIRP maximale (dBm)(EU)	Distance de fonctionnement
Souris sans fil : AMB582	2402-2480MHz	0.65	10M
Récepteur de souris sans fil : AMB581R	2403-2480MHz	0.65	10M

Targus Wireless Mouse

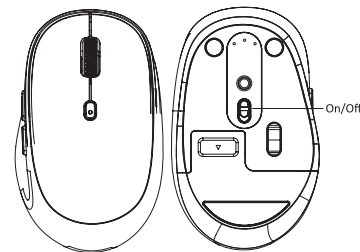

Installation de la pile

1. Insérez la pile AA, en vous assurant que les extrémités positive (+) et négative (-) correspondent aux indicateurs de polarité à l'intérieur du compartiment à piles.

2. Fermez le couvercle du compartiment de la pile ; placez soigneusement le couvercle jusqu'à ce qu'il s'enclenche.

Utilisez l'interrupteur « **ON/OFF** » pour mettre en marche et éteindre la souris. Désactivez la souris pour économiser l'énergie de la pile.

3. Lorsque la pile est faible, l'indicateur lumineux de faible tension situé en haut clignote pour indiquer que la pile doit être remplacée.

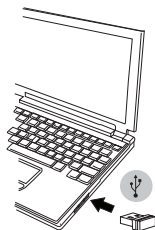

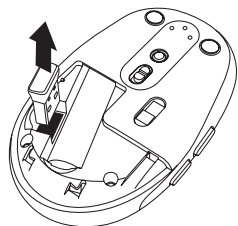

REMARQUE : LA PILE DOIT ÊTRE EN POSITION SÉCURISÉE ET VERROUILLÉE AVANT QUE LE COUVERCLE DU COMPARTIMENT DE LA PILE PUISSE ÊTRE REMIS EN PLACE.

Targus Wireless Mouse

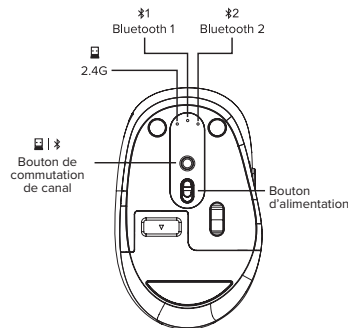

Établissement de la connexion sans fil 2.4G

(A) Retirez le récepteur USB de la souris.

(B) Branchez le récepteur USB A sur un port USB A disponible sur votre ordinateur.

C) Cliquez sur le bouton de sélection de canal sans fil pour sélectionner le premier canal 2.4G, puis l'indicateur LED blanc s'allumera et s'appariera automatiquement.

Targus Wireless Mouse

Avancer

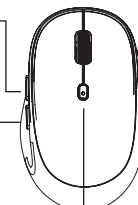

Appuyez sur ce bouton pour afficher la page suivante dans votre navigateur Internet.

Retour en arrière

Appuyez sur ce bouton pour afficher la page précédente dans votre navigateur Internet.

Commutateur DPI

Le commutateur se trouve sous la molette de défilement ; appuyez dessus pour sélectionner : 1000 DPI / 1600 DPI / 2400 DPI.

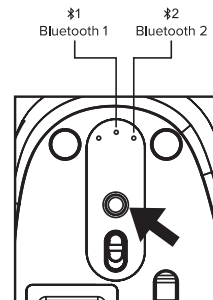

Mode d'économie d'énergie :

Après une période prolongée, si la souris n'est pas utilisée après 30 minutes, elle passera automatiquement en mode d'économie d'énergie pour économiser l'énergie et augmenter la durée de vie de la pile. Cliquez sur n'importe quel bouton de la souris pour reprendre le fonctionnement normal. La souris peut prendre quelques secondes pour se reconnecter à votre ordinateur.

Établissement de la connexion Bluetooth

Établir l'appariement

1. Activez la souris en faisant glisser le bouton d'alimentation sur la position « ON ».
2. Activez la fonction Bluetooth de votre appareil puis activez le mode de recherche Bluetooth.
3. Appuyez sur le bouton de connexion en bas de la souris pour sélectionner d'abord l'un des 2 canaux Bluetooth, puis maintenez le bouton enfoncé pendant 3 secondes pour activer le mode d'appariement Bluetooth ; l'indicateur blanc clignotera rapidement pendant 2 minutes en mode d'appariement.
4. Appuyez sur « Targus AMB582 » dans le menu de recherche Bluetooth de votre appareil.
5. L'appariement démarrera automatiquement. Appuyez sur la touche de canal Bluetooth pour commuter entre les appareils une fois que plusieurs appareils ont été connectés.
6. La souris Targus AMB582 est maintenant connectée à votre appareil et l'indicateur blanc arrêtera de clignoter.

Targus Wireless Mouse

ES - Introducción

Le agradecemos su compra del Mouse inalámbrico multidispositivo de tamaño mediano Targus. El receptor USB se guarda convenientemente dentro del mouse para usarlo fácilmente mientras viaja o sobre la marcha. Este es un dispositivo Conectar y Usar, por lo que no es necesario ningún software adicional.

Targus Wireless Mouse

Instalación de la pila

1. Inserte la pila tamaño AA, asegúrese de que las terminales positiva (+) y negativa (-) de la pila coincidan con los indicadores de polaridad del compartimiento de la pila.

2. Cierre la tapa de la pila, y ajústela con cuidado hasta que escuche el clic que indica que quedó bien sellada. Use el interruptor "ON/OFF" para encender y apagar el mouse. Apáguelo para ahorrar batería.

3. Cuando la pila está baja, la luz indicadora de baja energía en la parte superior parpadea para indicar que es necesario cambiar la pila.

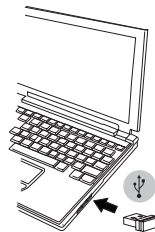

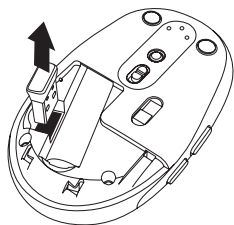

NOTA: LA BATERÍA TIENE QUE ESTAR EN UNA POSICIÓN SEGURA Y BLOQUEADA ANTES DE QUE SE PUEDA VOLVER A COLOCAR LA TAPA DE LA BATERÍA.

Targus Wireless Mouse

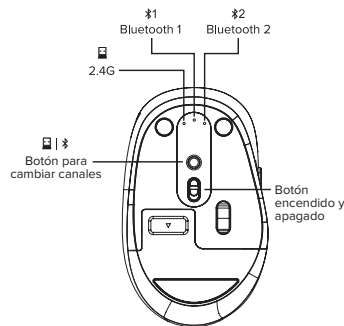

Establecer la conexión 2.4 G inalámbrica

(A) Retire el receptor USB del mouse.

(B) Conecte el receptor USB A en un puerto para USB A de su computadora.

(C) Haga clic en el botón de selección inalámbrica de canales para seleccionar el primer canal 2.4 G, luego el indicador LED blanco se encenderá y se emparejará automáticamente.

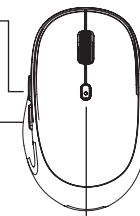

Targus Wireless Mouse

Adelante

Pulse este botón para ver la siguiente página en su navegador de Internet.

Atrás

Pulse este botón para ver la página anterior en su navegador de Internet.

Interruptor DPI

El interruptor está debajo de la rueda de desplazamiento, presione para seleccionar: 1000 DPI / 1600 DPI / 2400 DPI.

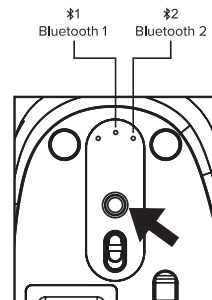

Modo de ahorro de energía:

Después de un rato, si el mouse no se usa en 30 minutos, se pondrá automáticamente en modo ahorro de energía para conservar potencia y aumentar la vida de la batería. Haga clic en cualquier botón del mouse para reanudar el funcionamiento normal. El mouse podría tardar unos segundos en reconectarse con su computadora.

Establecer la conexión de Bluetooth

Establecer emparejamiento

1. Encienda el mouse deslizando el botón de encendido a la posición ON.
2. Encienda la función de Bluetooth del dispositivo y active el modo de búsqueda de Bluetooth.
3. Pulse el botón de conexión en la parte inferior del mouse para seleccionar uno de los 2 canales de Bluetooth primero, luego mantenga pulsada la tecla elegida durante 3 segundos para habilitar el modo de emparejamiento de Bluetooth, la luz indicadora blanca parpadeará durante hasta 2 minutos cuando el mouse esté en modo de emparejamiento.
4. Toque "Targus AMB582" en el menú de búsqueda de Bluetooth en su dispositivo.
5. El emparejamiento empieza automáticamente. Presione el botón del canal de Bluetooth para cambiar entre dispositivos una vez conectados múltiples dispositivos.
6. El mouse Targus AMB582 ya está conectado a su dispositivo y la luz blanca dejará de parpadear.

Targus Wireless Mouse

Australian And New Zealand Consumers Only

Thank you for your purchase. Targus warrants to the original purchaser that its products are free from defects in materials and workmanship and, during the specified warranty period, and lasts as long as the original purchaser owns the product. The warranty period is stated on the packaging or in the documentation provided with this Targus product. Targus' Limited Product Warranty excludes damage caused by accident, neglect, abuse, misuse, improper care, normal wear and tear, ownership transfer, or alteration. The limited warranty also excludes any product that is not manufactured by Targus (including, without limitation, laptops, smartphones, devices, tablets, or any other non-Targus item) that is used in connection with the Targus product.

In the event that the Targus product has a defect in materials or workmanship Targus will, after receiving a warranty claim and inspecting the product, at its discretion, do one of the following: repair, replace, or refund with the same or a similar product (or part) of no lesser quality and ship it to the original purchaser at Targus' expense. As part of this inspection, proof of purchase will be required. There is no charge for inspection. To make a warranty claim, please contact Targus Australia or New Zealand (see details below), or return the product to the place of purchase. The original purchaser must bear the cost of the delivery to Targus.

Under Australian and/or New Zealand Consumer Laws, in addition to any warranty Targus gives, our products come with guarantees that cannot be excluded. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are entitled to have the products repaired or replaced if they fail to be of acceptable quality and the failure does not amount to a major failure. For any warranty question, contact Targus Australia Pty. Ltd. (i) by mail at Suite 2, Level 8, 5 Rider Boulevard, Rhodes NSW 2138, by phone AUS 1800 641 645 or NZ 0800 633 222 or by Email: infoaust@targus.com. For additional information, check out our website at targus.com/au/warranty.

Regulatory Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Regulatory Compliance (applicable to products with electronic circuitry/parts only)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Targus Wireless Mouse

FCC Statement

Tested to Comply

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna;
- Increase the separation between the equipment and receiver;
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected;
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not authorized by the party responsible for compliance could void the user's authority to operate this product.

Declaration of Conformity

Targus hereby declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

Targus Recycling Directive

At the end of this product's useful life please dispose at an appropriate recycling collection point provided in your country.

Industry Canada statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
