2) “◀V◀” : up selection key. Keep pressing it during the playing to volume down and keep pressing it for a short period to select the previous song;

3) “V▶▶” : down selection key. Keep pressing it during the playing to volume up and keep pressing it for a short period to select the next song.

4. Function features of this product

1) Dual-mode power supply: the product is provided with lithium battery and supplied by USB interface or DC5V USB. The dual power supply mode can be selected freely.

2) Power failure memory playing: the precise position of last playing interruption can be memorized automatically.

3) AUX audio output: 3.5MM audio line input and computer can be connected easily. It can connect broad range of audio-visual products such as MP3/MP4/IPOD/IPHONE.

4) Bluetooth wireless music transmission: high-quality Bluetooth module is built in to realize wireless music transmission and hand-free connection.

5. Product Parameters

Product Model: BT058

Bluetooth Specifications: Bluetooth V3.0+EDR

Transmission Distance: ≤10M (depending upon operation environment and devices to which it connects)

USB Recharge Voltage: DC 5V

Built-in Battery: Lithium battery

Output Power: 3W×1

Frequency Response: 90Hz-20KHz

Sensitivity: 80db±2db

Signal to Noise Ratio (SNR): ≥76dB

Product Dimensions: φ61.5×D71.5 mm

6. System Composition

Insert MICRO USB end of USB power line of the accessory to USB power socket of the speaker and the other end to computer USB port or USB charger to charge this product. The red indicator lamp will be off after this product is fully charged.

8. Compatibility

Wireless: Devices configured with Bluetooth 2.1+EDR or higher version such as IPAD, IPHONE (at least the second generation IPHONE installed the IPHONE software 3.1), IPOD TOCH and MAC as well as a majority of intelligent phones or computers that support Bluetooth.

Bluetooth V3.0+EDR consists of protocols like A2DP, AVRCP and HFP and so on.

9. Troubleshooting

Faults / Phenomena	Solutions
Unable to pair up with other devices	1. Check whether the speaker is still in the process of search or switch it off and then on. 2. There are too many Bluetooth devices in the proximity that cause difficulty in connection. Please turn them off.
The sound is rather low or distorted	1. Check the Bluetooth device's volume and then adjust it to a proper level. 2. Recharge the battery
The music stops from time to time	1. Check whether the speaker's effective transmission range is exceeded or there is an obstacle standing between the speaker and other Bluetooth devices.
The Bluetooth indicator remains off	1. It suggests the battery power drops quite low and retry once being recharged. 2. Turn it on again.

10. FCC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
