

EXHIBIT C - EUT INTERNAL PHOTOGRAPHS

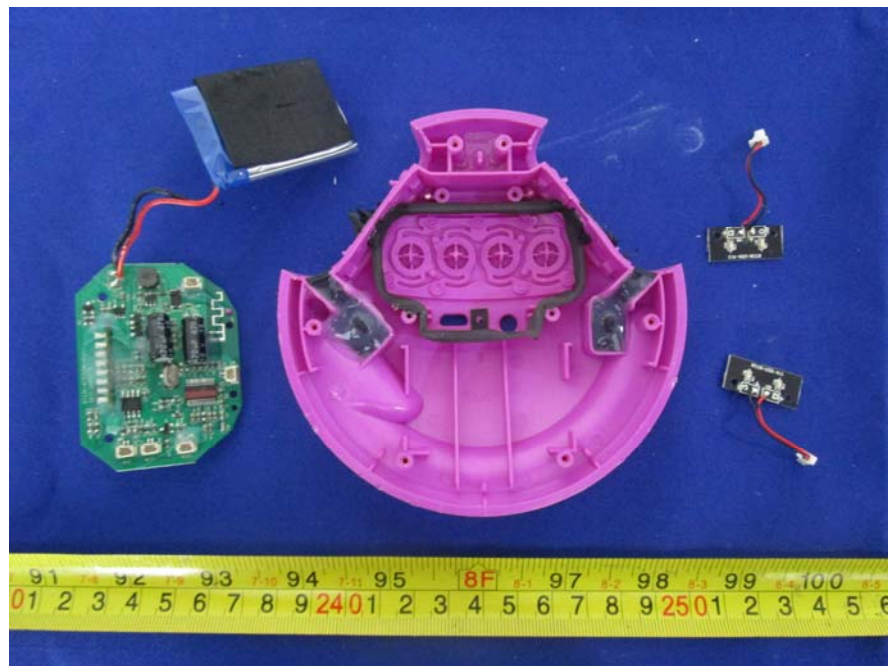

EUT – Uncover View

EUT – Uncover View

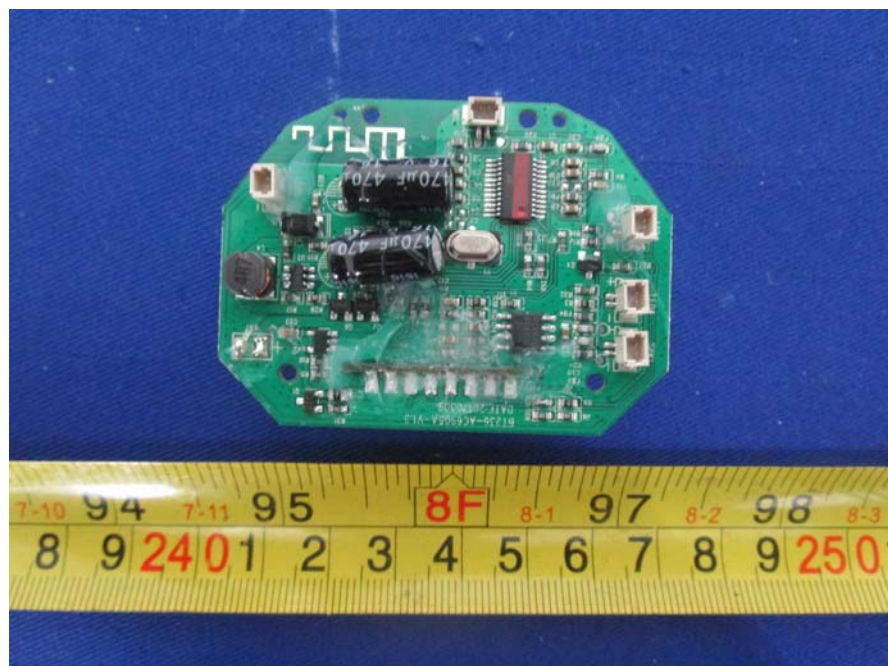

EUT – Uncover View

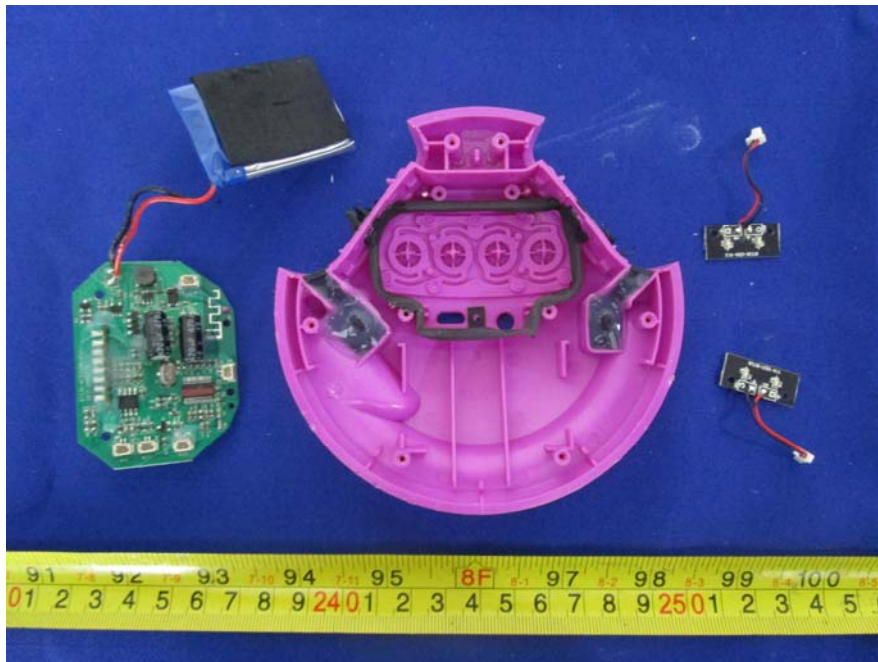

This photograph shows the internal components of the EUT device. A pink plastic housing is open, revealing a green mainboard with various electronic components. A black battery is connected to the mainboard. Two small black sensors are also visible. A yellow ruler is placed below the components for scale.

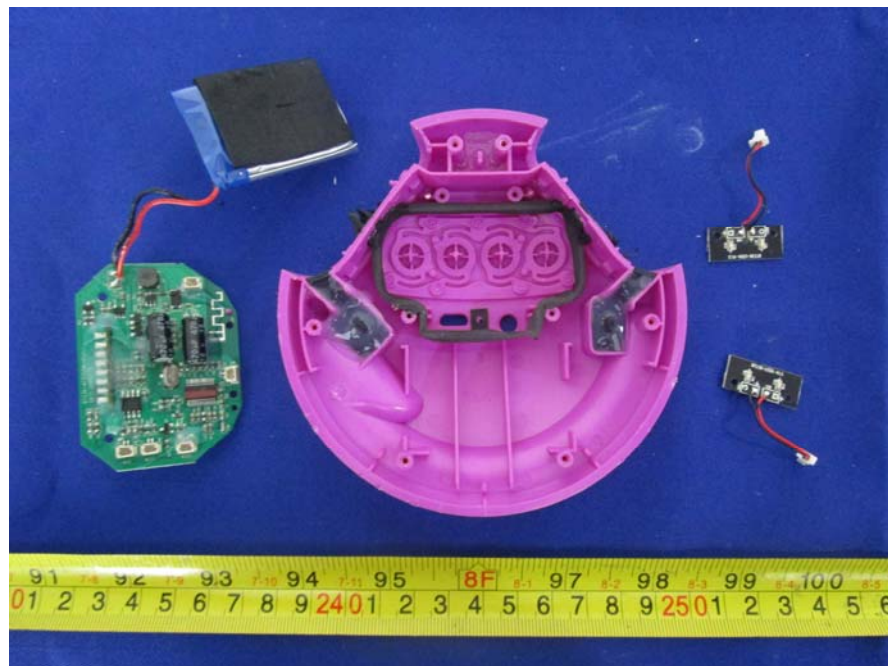

EUT – Mainboard Top View

This photograph shows the top view of the green mainboard. It features various electronic components, including a large black capacitor, several integrated circuits, and various resistors. A yellow ruler is placed below the mainboard for scale.

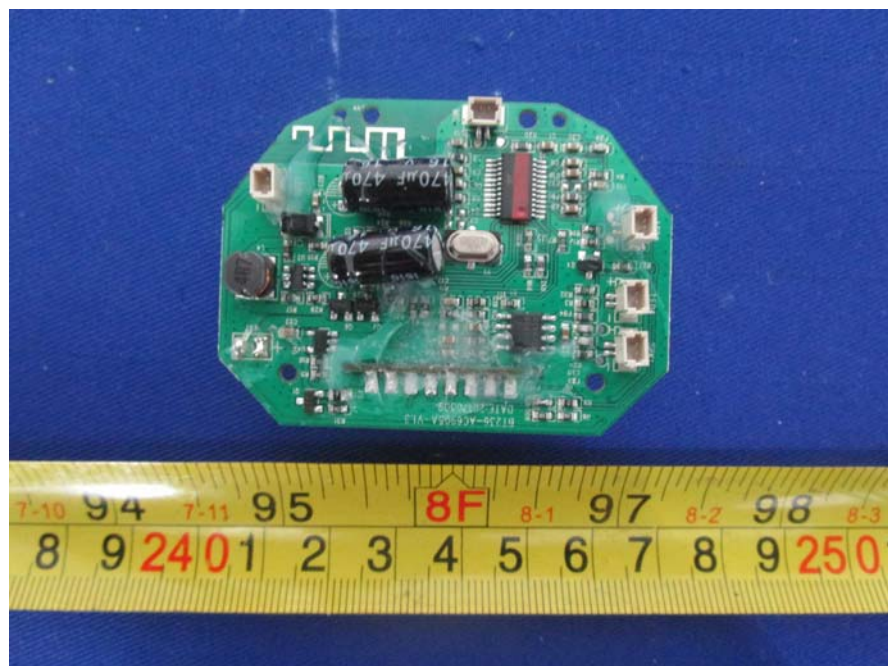

EUT – Uncover View

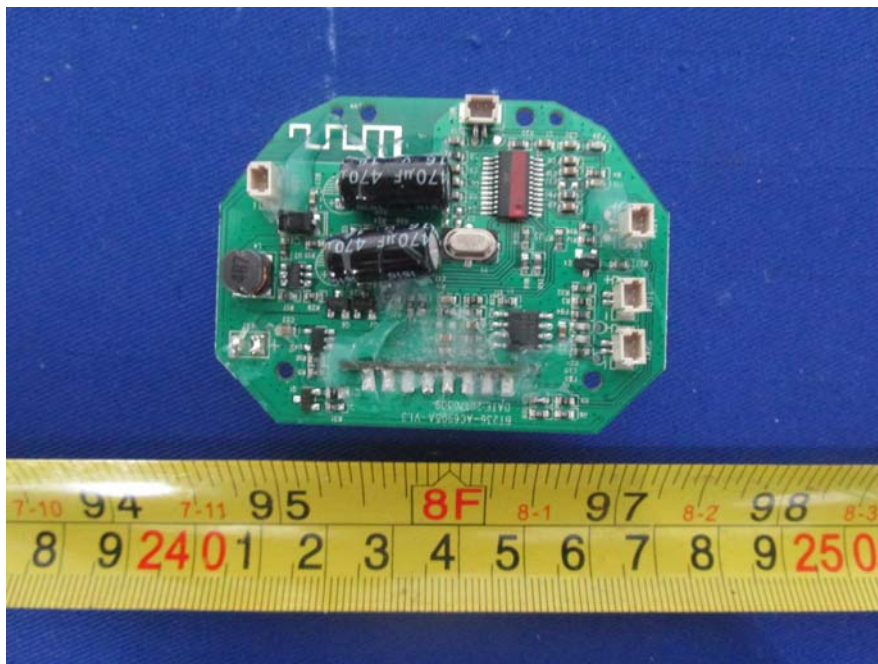

This photograph shows the internal components of a device, laid out on a blue surface. In the center is a pink, semi-circular plastic housing with a black internal frame. To the left is a green printed circuit board (PCB) with various electronic components, including a large black capacitor and several integrated circuits. A small black battery is connected to the PCB by red and black wires. To the right of the housing are two small black rectangular components, each with a red wire and a black wire. A yellow ruler is placed horizontally below the components, showing measurements in inches and centimeters.

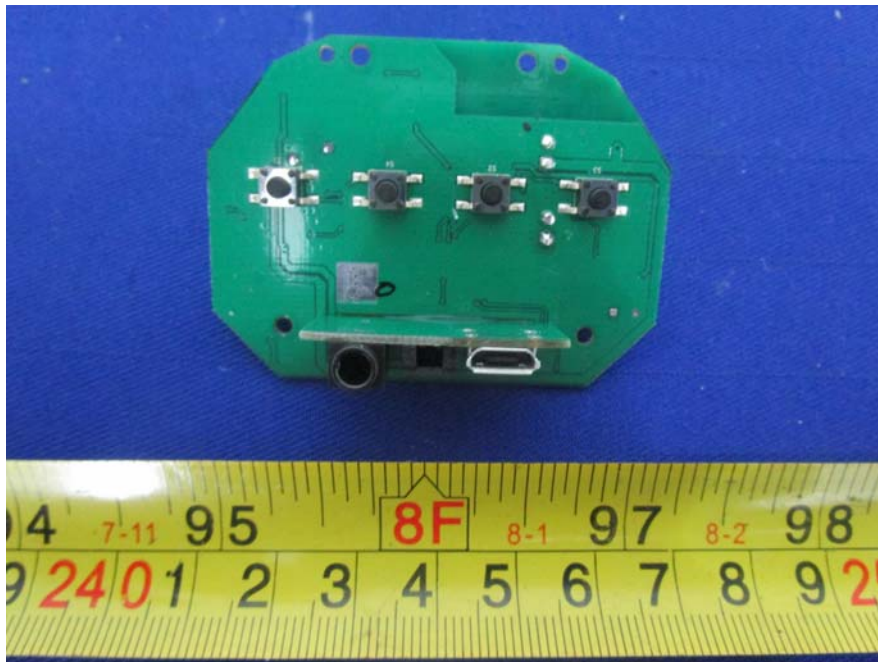

EUT – Mainboard Top View

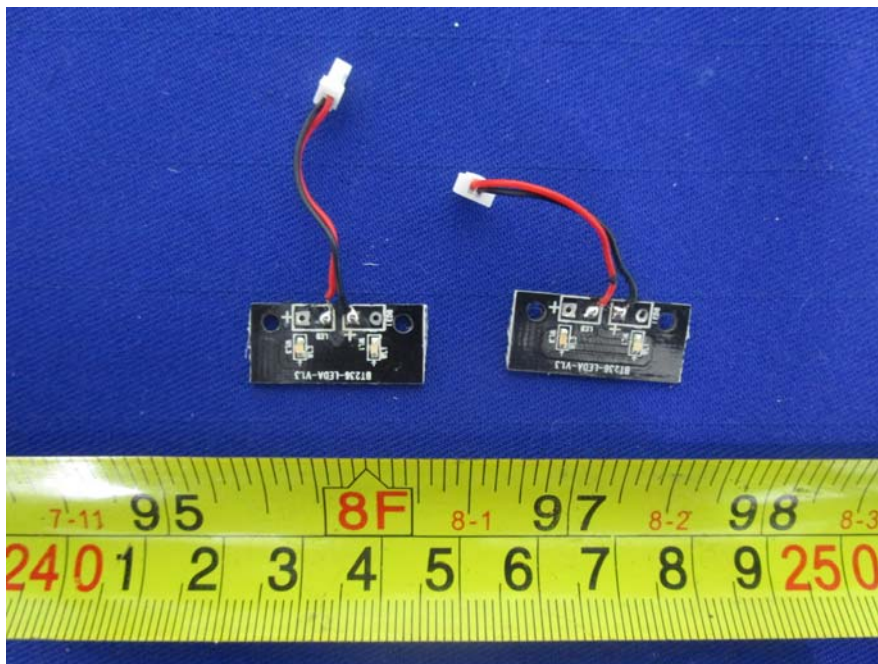

This photograph provides a top-down view of the green printed circuit board (PCB) shown in the previous image. The board is populated with various electronic components, including two large black electrolytic capacitors, several integrated circuits, and numerous surface-mount components. A yellow ruler is placed horizontally below the board, showing measurements in inches and centimeters.
