

**Exhibit 12: Operational Description****§ 15.203 Antenna Requirements**

The 4073 GS-3BN 67108 uses a Dipole antenna that is permanently soldered to radio board and is not accessible by the user. The same type as specified by the manufacturer can only replace these antennas; therefore, it meets the requirements of this section.

**§ 15.307 Coordination with fixed microwave service**

Enclosed on the following page is the UTAM affidavit stating compliance to this section.

UTAM Affidavit

**Communication Certification Laboratory**

April 18, 2000

ALCATEL  
Mr. Jose Paulet  
7 Stiles Road  
Salem, New Hampshire 03079

Dear Mr. Paulet:

On behalf of UTAM, Inc., Communication Certification Laboratory, has certified that the equipment identified below, meets the disablement and location verification process (LVP) requirements of FCC Rule 15.307, and qualifies as a UTAM approved coordinatable device.

Applicant: Alcatel  
UTAM Member Number: ALCATEL1  
UTAM Certification ID: OYOCCLUM00034

FCC ID Number(s):  
Fixed: OYOPWTB  
Mobile: OYOPWTH

Model number(s):  
System: OmniPCX 4400  
Fixed: IBS / 4070 IO - 3AC36116  
Mobile: 4073 GS - 3BN 67108

Any changes to the (LVP) or disablement mechanism and procedure or any changes to the FCC Certification may require recertification by UTAM, Inc. Please document and forward the details of any changes to Communication Certification Laboratory.

Communication Certification Laboratory will continue to maintain strict confidentiality regarding the engineering and functionality of your product, including the disablement and location verification mechanism.

A copy of this affidavit shall be included with your application for certification by the FCC, in accordance with FCC Part 15, Subpart D.

Sincerely yours,

  
Richard D. Foster
