

Dear Joe:

Thank for your information . I would like to send re-measurement graph of tow marker indicated as above data is for bandwidth value, and it just means the bandwidth value is 188.3KHz.

I will ask my client to modify the EUT if the device was need to be modified.

Please find measurement graph for your reference.

Sorry to bother you again

Please let me know if you have any question on the data. Tks.

With Best Regards,
Country Huang
