1. Overview and specifications

(1) Overview

The remote control uses wireless communication in the 2.4 GHz band and can control the STB. It also makes it easier for the user to control the remote control by providing voice assistance while it is connected to the STB.

(2) Specifications

구 분	내 용
Model Name	C507-GGR-NTA-F-W
Frequency Range	2402~2480 MHz
Channel	40 Channel
Tx Output	Max 10 dBm
Rx Sensitivity	-97 dBm
Size	38.0mm X 161.3mm X 17.0mm (Tolerance $\pm$ 0.5mm)
Power	DC 3.8 V(Li-Ion Capacitor 100F)
Operating Temperature	-10 $^{\circ}$ C ~ 50 $^{\circ}$ C

2. Precautions

1) Charging

Use a USB Type-C charger to charge the product.

The red LED indicator turns on during charging and turns off when charging is complete.

After charging, follow the pairing instructions in the remote control user guide to connect the device.

2) If the Remote Control Does Not Operate

If the remote control does not respond, recharge it via USB and try pairing again.

3) Storage Precautions

When stored in a location without light, solar charging will not occur, and USB charging may be required more frequently.

4) Charging Precautions

Use only genuine USB chargers that support 5V output.

Using non-certified chargers may cause malfunction or damage.

5) Handling Precautions

Do not apply strong impact or drop the product, as this may damage the outer case or internal components.

3. FCC

(1) Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one more of the following measures:

☐ Reorient or relocate the receiving antenna.

☐ Increase the separation between the equipment and receiver.

☐ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

☐ Consult the dealer or an experienced radio/TV technician for help.

Warning!

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

Note: The manufacturer is not responsible for any Radio or TV interference caused by unauthorized modifications to operate the equipment.

(2) FCC Caution

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- ❑ This device may not cause harmful interference
- ❑ This device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the authority to operate equipment. The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

(3) Federal Communication Commissions (FCC) Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

4. IC

(1) Canadian (IC)

Two-part Statement (English and French)

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : 1) L'appareil ne doit pas produire de brouillage; 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

5. Importer and address

6. Factory and address

- 1) Factory 1: OHSUNG ELECTRONICS CO., LTD.
335-4, Sanho-daero, Gumi-si, Gyeongsangbuk-do, Rep. of Korea
- 2) Factory 2: Ohsung Eletronic (Suzhou) Co., Ltd.
No.188 Tunpu South Road, Qiushe Economic
Development Zone, Tongli Town, Wujiang City, Jiangsu Province, China
- 3) Factory 3: PT. OHSUNG ELECTRONICS INDONESIA
Jl. Selayar Blok D7 Kawasan Industri MM 2100,
Mekarwangi, Cikarang Barat 17845 Jawa Barat-Indonesia
- 4) Factory 4: OHSUNG MEXICO S.A. DE C.V.
CERRADA CENTINELA 1719, PARQUE INUSTRIAL CACHANILLA, B.C., MEXICALI 21394 Mexico
