

FCC Part 15 Subpart C

**Frequency Hopping
Spread Spectrum Transmitter**

Certification Test Report

Appendix E

Product Labeling

Manufacturer: Neptune Technology Group

Model: R900-v2

Variants: ♦ **Pit Mounted MIU with External Antenna**
♦ **Wall Mounted MIU with Integrated Antenna**

FCC ID: P2SNTGSRFV2

ACS Report Number: 02-0177-15C

This label will appear on the side of the enclosure as in the following picture.

Figure E2: Label Placement

Due to size constraints the following statement was not practical to place on the label:

“This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.”

Instead the statement will be included in the manual.
