

## Product Description

**Purpose:** KB778 is a wireless mouse with multimedia keyboard, identical to current mice, adds the convenience of being free of cable. The system uses the 27 MHz ISM band. The transmitter realize a low power mode for batteries saving.

|                                           |                                                              |
|-------------------------------------------|--------------------------------------------------------------|
| <b>Microprocessor :</b>                   | EM78P257M                                                    |
| <b>Radio transmission:</b>                | no directional, from mouse to computer only.                 |
| <b>Number of channels:</b>                | 1                                                            |
| <b>Carrier frequencies:</b>               | 27.045MHz / 27.145MHz.                                       |
| <b>Modulation:</b>                        | FSK                                                          |
| <b>Transmission range :</b>               | over 1.5m typical, free space.                               |
| <b>Mouse Operating Current:</b>           | 9MA                                                          |
| <b>Standby Current:</b>                   | 20UM                                                         |
| <b>Antenna :</b>                          | inductive loop antenna, integrated on printed circuit board. |
| <b>Battery :</b>                          | alkaline , 2 x AAA                                           |
| <b>resolution :</b>                       | 495 DPI .                                                    |
| <b>micro switch:</b>                      | chock-per : 1,000,000 cycles.                                |
| <b>number of button/wheel :</b>           | 3 button , 1 wheel.                                          |
| <b>running life:</b>                      | 3 years                                                      |
| <b>operation force in any direction :</b> | 75 +/- 15g.                                                  |
