

Exhibit D: External Photos

FCC ID: P6I-BTTX01

Bluetooth antenna -
external view

A close-up photograph of an electronic assembly. A black plastic component, likely a Bluetooth antenna, is mounted on a metal chassis. A small, dark, rectangular component is visible on the chassis, connected to the antenna. A white ribbon cable is visible in the foreground, partially obscured by a white plastic component. The background shows a metal frame with horizontal bars.

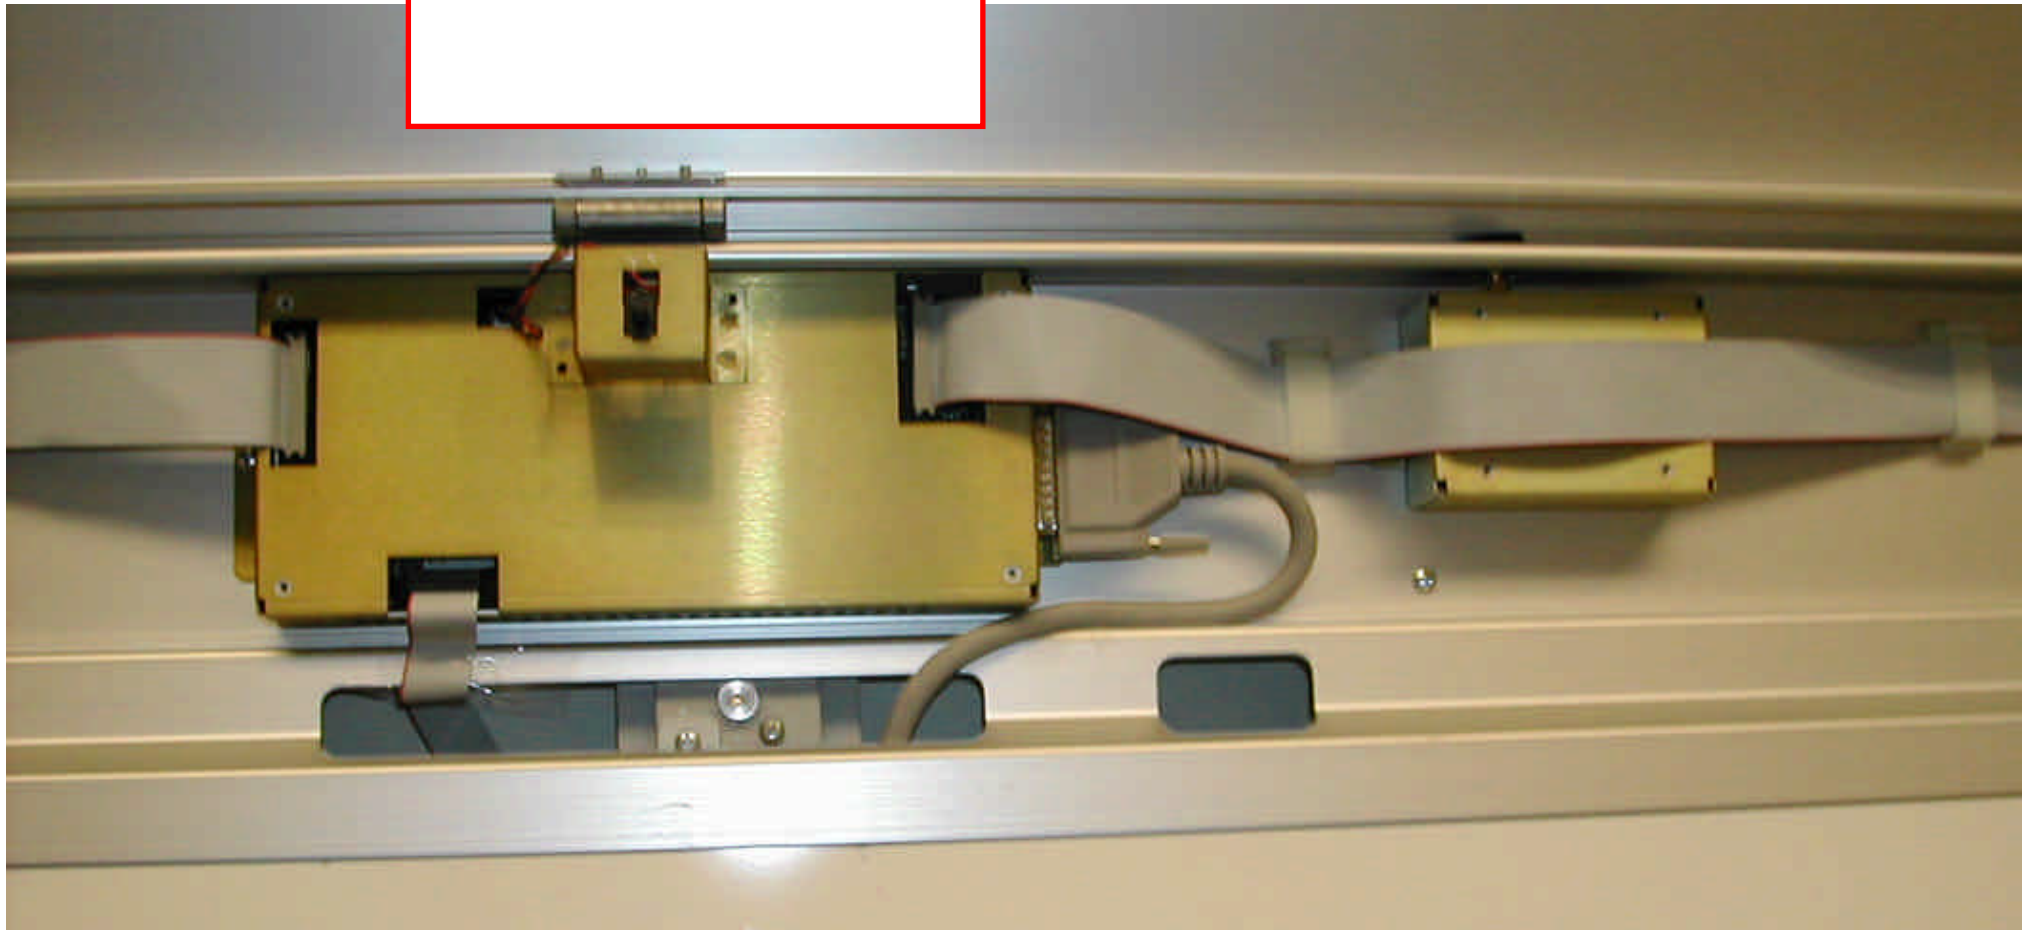

Bluetooth antenna - connection to chassis assembly

Bluetooth antenna connection to chassis assembly

A close-up photograph of a mechanical assembly. A silver-colored metal plate, likely the chassis, is mounted on a dark surface. A brass-colored antenna is connected to the plate. A white, ribbed flexible cable is visible in the foreground. A red rectangular box highlights the text 'Bluetooth antenna connection to chassis assembly'.
