

CONGRATULATIONS ON PURCHASING YOUR NEW NUTRISCALE.

Now, you are just
steps away from
smart eating.

2. READING THE DISPLAY

- 1 Maximum weight limit is 5000g or 11lbs
- 2 Unit indicator display
- 3 Wireless indicator light shows if the scale is currently connected
- 4 Charging indicator for built-in battery
Red: charging process not complete
Green: battery fully charged
- 5 Main display for scale reading

4. CHANGING UNITS OF MEASUREMENT

Change the scale's unit of measurement by short pressing the unit button located on the base of the scale (next to battery compartment) until the desired unit is displayed on the LED screen. Also, you can remotely change the units of measurement using select NutriPlus apps.

6. DOWNLOADING THE SOFTWARE

Download one or many of our free NutriPlus apps available at the App Store for Apple and on Google Play for your Android device.

1. TURNING ON/OFF

Lightly press the power button (white circle) next to the LED screen to turn on the scale. Press the POWER button down for 3 seconds to turn off. The NutriScale will automatically turn off after being idle for 200 seconds.

3. CHARGING THE BATTERY

Plug one end of the supplied USB cable into to USB port on the right side of the scale. Plug the other end into a USB power adaptor or computer. Alternatively, you can place 4 - AAA batteries into the battery compartment on the base of the scale.

5. TARING THE SCALE READING

Reset the scale to zero weight by lightly tapping the TARE button on the bottom right of the scale. The scale will recalibrate to zero in approximately 2 seconds. You can also remotely TARE your scale using select NutriPlus apps.

7. CONNECTING TO YOUR MOBILE DEVICE

Using the setting functions on your mobile device, connect through Bluetooth. Apple will connect automatically. For Android, click on search and then scan for available Bluetooth devices, select 'Reflex NutriScale' and enter password 1234.

8. CONNECTING THE SCALE TO THE APP

Turn on the scale and open your Nutriplus app on your mobile device. Press **CONNECT** on the NutriPlus app and they will instantly connect. Now you are on your way to smart eating.

10. CONTACTING US

We're friendly, contact us with any questions you may have:

1.778.800.0841

9. CHOOSING NUTRIPLUS APPS

A variety of free NutriPlus apps are available depending on how you want to use them:

- NutriPlus Lite
- NutriPlus NFT Builder
- NutriPlus Diary
- NutriPlus Sweet Control
- NutriPlus Recipe Library
- NutriPlus Market Place
- NutriPlus Unicorn
- NutriPlus Go Social

Federal Communications Commission (FCC) Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generate, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

RF exposure warning

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

The equipment must not be co-located or operating in conjunction with any other antenna or transmitter.

IC Radiation Exposure Statement for Canada

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

Conformément à la réglementation d'Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur) approuvé pour l'émetteur par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l'intention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

User manuals for transmitters equipped with detachable antennas shall also contain the following notice in a conspicuous location:

This radio transmitter (identify the device by certification number, or model number if Category II) has been approved by Industry Canada to operate with the antenna types listed below with the maximum permissible gain and required antenna impedance for each antenna type indicated. Antenna types not included in this list, having a gain greater than the maximum gain indicated for that type, are strictly prohibited for use with this device.

Le présent émetteur radio (identifier le dispositif par son numéro de certification ou son numéro de modèle s'il fait partie du matériel de catégorie I) a été approuvé par Industrie Canada pour fonctionner avec les types d'antenne énumérés ci-dessous et ayant un gain admissible maximal et l'impédance requise pour chaque type d'antenne. Les types d'antenne non inclus dans cette liste, ou dont le gain est supérieur au gain maximal indiqué, sont strictement interdits pour l'exploitation de l'émetteur.
