

Ages 8+

The Discovery Kids logo, featuring the words "Discovery" and "KIDS" in a stylized font, with a globe graphic behind the text.

Your mission is to gather intelligence. And your best tool is your R/C Spymobile mobile listening device. Slowly you drive around the corner, careful not to be detected. And with a push of a button, you hear all details of their master plan. Wait! You've been detected. You react quickly and maneuver your R/C Spymobile out of the room and out of sight. Whew! That was a close one.

Requires 1 "9V" and 3 "AAA" batteries (not included).

-

Please check to see that all components are enclosed before disposing of carton. If any components are missing or damaged please contact Customer Service immediately at 1-800-379-0244.

- ## Vehicle Battery Installation

-

Requires 1 "9V" battery

-

5. Tighten the screw until snug. Do not overtighten.

1. Remove any twist ties or tape from the headphone cord.
2. Straighten the cord to get out any kinks.
3. Insert the headphone plug into the controller's headphone

Set the power switch on the underside of the controller to the "ON" position. (Figure 5) The red LED power indicator on the top of the controller will be illuminated when power is on. If the controller is idle for 10 minutes, it will automatically shut off and the red LED indicator will turn off. To turn the controller back on, move the power switch to the "OFF" position and then back to the "ON" position.

2. Set the power switch on the underside of the vehicle to the "ON" position. (Figure 6) The red LED power indicator on the top of the vehicle will be illuminated when power is on. If the vehicle is idle for 10 minutes, it will automatically shut off and the red LED indicator will turn off. To turn the vehicle back on, move the power switch to the "OFF" position and then back to the "ON" position.

Driving:

Your R/C Spymobile has 8-function driving operation (Figure 7):

1. Forward- shift the left joystick forward.
2. Reverse- shift the left joystick backward.
3. Left turn- shift the right joystick to the left.
4. Right turn- shift the right joystick to the right.
5. Forward left turn- shift the left joystick forward and the right joystick to the left.
6. Forward right turn- shift the left joystick forward and the right joystick to the right.
7. Reverse left turn- shift the left joystick backward and the right joystick to the left.
8. Reverse right turn- shift the left joystick backward and the right joystick to the right.

Listening:

The listening function operates only when the vehicle comes to a complete stop. This is to avoid noise interference from the vehicle's motor.

1. To listen, place the headphones on your head with the speakers inside your ears facing forward.
2. Press the "listening" button on your controller. The green LED light on the controller will indicate that the listening feature is activated. You must hold the button and keep the vehicle still to maintain listening ability.

3. Three flashing green LED lights on the vehicle will indicate that sound is being detected.

CAUTION: Adjust the volume dial so the sound is comfortable. Do not turn the volume all the way up or it may cause damage to your hearing.

- Your R/C Spymobile operates using radio frequencies. To achieve optimal performance, avoid using your vehicle near radios, fluorescent lights, cordless phones or other electrical appliances.

- Never operate your R/C Spymobile in or around water or any other liquid or you may damage the electrical components.
