

Request Letter

Subject: **Limited Module Approval**

Date: 31th May 2004

FCC ID: PANWL1205

Dear Reviewer,

We, Sporton International Inc., are authorized by CC&C Technologies, Inc. to have their state-of-the-art WLAN 11b USB Module 12x71 approved under limited module approval authorization specific the notebook computer. This module is going to be integrated inside the notebook, and the interface of this module is USB. The requirements defined in Public Notice DA00-1407 have been fulfilled and clearly explained below.

1. ***The requirement of RF shielding:*** The shielding of the radio portion can be demonstrated in exhibition External Photo.
2. ***The requirement of buffered inputs:*** Buffered data inputs stage has been integrated in chip SiS-162.
3. ***The requirement of power supply regulation:*** The part number of the power regulator is APL5509-33DC and RT9167_3.3V.
4. ***The requirements of section 15.203 and 15.204(C):*** The requirements of antenna connector and spurious emission have been fulfilled. Please reference the Test Report.
5. ***The requirement of stand-alone test configuration:*** Please reference exhibition Test Configuration Photo for the stand-alone test configuration.
6. ***The requirement of labeling:*** The instruction on the labeling rule of the end product has been stated in the users manual of this module. Please also see the exhibition Label Sample.

7. ***The requirement of compliance on specific rule or operating requirements:***
The required FCC rule has been fulfilled and all the instructions for maintaining compliance has been clearly stated in the Users Manual.
8. ***The requirement of RF exposure:*** This module is specific to the notebook computer and with output power which is lower than the low threshold, so no SAR testing is required. Instead of SAR, MPE calculation is attached in the test report as reference.

Please do not hesitate to contact me for any questions of this request letter. Thank you.

Regards,
