Re: User Manual for PMV-E106
FCC ID: PAXPMVE106

We, (Pacific Industrial Co., Ltd., Godo-cho, Anpachi-gun, Gifu, 503-2397 Japan), hereby confirm that we do not issue an instruction manual for our product PMV-E106. This product is a tire pressure monitoring system transmitter for vehicles, and one of the automobile parts installed in vehicles as original equipment.

Compliance Statement (FCC rules 15.19(a)):

"This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference, and,*
- 2) This device must accept any interference received including interference that may cause undesired operation."*

"CAUTION TO USER: Changes or modifications made to this equipment not expressly approved by Pacific Industrial Co., Ltd. could void the user's authority to operate the equipment.

Radiofrequency radiation exposure Information:

The radiated output power of the device is far below the FCC radio frequency exposure limits. Nevertheless, the device shall be used in such a manner that the potential for human contact during normal operation is minimized.

Because our PMV-E106 is too small to place above compliance statement on it and because we do not issue any users manual for our PMV-E106, we hereby confirm that we will inform the car manufacturer that the compliance statement must be included in the user's manual of the car.

Yours Sincerely

Takashi Takeyama
